Comments: THIS PROPOSAL IS OBSURD. I am against thos in every way this will change our town kicking out the local who rent bringing too many people and too much trash. We already have issues with the disrespect from out of stater not to mention you will bring every sickness from every state with them. This is not a big city nor is thos whitefish look how it destroyed that town. Missoula itself is a also a fine example of the pollution and crap they will bring to our forest killing g native plants and animals everywhere. It will also reduce hunting and fishing for everyone its already over run if anything the whole lolodge should be taken down for good.
