Comments: I do not want to see Holland Lake lodge expanded. Holland Lake is a gem and the lodge that already exists takes away from how serene the lake could be. I love swimming in the lake, hiking around the lake and often use the lake as a starting point to backpack into the Bob.

It is especially concerning to me that it is a non-local corporation that has purchased the Lodge. It has become more and more apparent that Montana seems to be for sale with the sole purpose of becoming a playground for the rich. In an ideal world the forest service would have canceled the lease for the lodge once it went up for sale.

The people who live and recreate in Montana love it for how it already is. Why should we change it to make it more desirable and profitable for people who cannot enjoy Montana without "luxury" accommodations.
