Comments: Leaving Holland Lake in its current state and not going forward with the expansion project and build is in the best interest of not only those who enjoy the Lodge, the land and the beauty of Holland Lake today but preserving its beauty and awe will allow for future generations to enjoy all it has to offer. There are far too many resorts, buildings, corporations and "the next big thing" wiping out nature. Please leave the beauty of Montana alone so that my daughters can some day bring their sons or daughters to the same places I love to bring them and allow them the joy of telling all of the stories of when I brought them as a little girl and how much fun they had in the lake, on the horses and on the trails. Thank you for your consideration.
