First name: WESLEY

Last name: KINSOLVING

Organization:

Title:

Comments: Hello, I am emailing you in regards to Holland lake lodge. It would seem like a wonderful idea to have another mega lodge for the rich. I makes you think about all the jobs this will create and it will. However, it is not going to create jobs for people in Montana, the Seeley valley simply doesn't have a population to sustain another paws up. It will have to build extra facilities to house workers from out of state. I mean who in Seeley doesn't already have a job, the mill has a hard time finding employment that's why they have signs up everywhere. They will have to recruit non-locals to come in for the summer and then it will fill up, but what happens after the summer boom? There will just be a huge empty lodge with a huge empty employee housing. This in no way is going to help our local economy, it will just put more money in out of state pockets and provide nothing for Montana.

And let's not forget the worst part, it will permanently transform this area, I have great memories with my wife at Holland lake, walking out to the falls. My fear is that it will become in accessable to regular locals who love this landscape the way it is.

I appreciate you taking the time to take our comments into consideration.
