Comments: It is my hope that the USFS does what is right for ALL of the people who they work for!

Kurtis Steele - we are watching we are hoping that you and your staff do the right thing, please think of future generations of ALL of them, those with money and those without.

We see here that you have made your decision without public comment. It would be admirable and honorable of you to rethink your hasty decision give more thought to the social and environmental impacts and then scale this project back.

Kurtis Steele -

"The Flathead National Forest is taking scoping comments on the development plan until Sept. 21 and will hold a public meeting just to provide information at the Holland Lake Lodge from 5-7 p.m. on Sept. 8.

Public comment might not do much to change the project. Flathead National Forest Supervisor Kurtis Steele indicated that he would probably use a categorical exclusion to approve the project, because the proposal involves construction on a recreation site that already has buildings on it.

If that's the case, the Forest Service won't conduct an environmental assessment or impact statement, and the scoping period will be the only opportunity for the public to provide comment."
