Comments: You JUST posted the final plan on 9/6 and on the long weekend. I never received any mentions on the project, certainly not in my post office box!! Does Missoula Planning know about this? How can you get away with hidden plans for one this big, and for two, give a very short window to comment! This is a sliver of time to figure out what the heck is going on and then make a comment. This is mean spirited and illegal!!

Also, to say this does not require a EA or EIR, you are sadly mistaken. In your own literature you state that Holland Lake is a winter migration area for elk and other big game. The loon nesting area is right at this proposed expansion. Lynx, wolverines, certain bats and endangered butterflies are all in this area. It is also in grizzly territory, check out the 60 Minutes spot! This area is basically a classroom to the world because it is so pristine.

To bring in this many new things and people will destroy this door to the Bob and decimate the valley as we know it.

Condon does not have the support and infrastructure to handle this! It doesn't even have a garage site. Heck, we voted down a garbage container!!

If the Forest Service wants to do the right thing, they/you will say NO to this project! Shame on you for even considering this! It benefits no one except predatorial POWDR.....All things forest and Condon will be gone forever! Please don't be known as the US Forest DIS-Service, especially to the ones who fund you, the tax payers!

Thank you for the space to put my opinion.
