Comments: I strongly oppose the proposed development plan. The proposed development is too large for the area and would ruin the small lake and its surrounding area. We have been visiting Holland Lake for over 20 years and one of the draws to visiting Holland Lake is the quiet beauty of the area and that that it isn't run over with tourists. Holland Lake is one of the few places left in Montana that has not been taken over and developed by an outside developer. It would be terrible to see the area's pristine beauty be compromised for the sake of money. To many places in Montana have already succumb to that and Holland Lake should not be another. Holland Lake is a treasure to all that know it and it should remain available to the residents of Montana. If this proposal goes through as is, Montanans that have been going to this area for generations will be run out.
