Comments: Please do not make Holland lake or any of the beautiful lakes in Montana the same as the ones in the big cities. Montana is a beauty that you can really enjoy by the simple ways of life. Monetization of these beautiful land will only disrupt the ecosystem hereby. Why isn't it enough that Montana is an escape from the very chaotic world now? Do not corrupt Holland lake with this, leave Montana the way it is. Nature has been a way of life for most of the people and the passerbys here. I was stationed here, not by choice, and I fell in love with the way Montana makes you feel. The mountain life is the most beautiful in here because of the simplicity of the towns. Please leave Holland lake or any of the Montana lake alone.
