Title:

Comments: Why in the world would you spoil such natural beauty with such an eye sore ? There are so many other places in this country that have done the same thing that you plan on allowing only to culminate eventually with predictable and regrettable outcomes. You folks are not the ones who suffer from your decisions. The surrounding population, the natural beauty and wildlife. They are the ones who pay the price. To leave only twenty days to leave a comment when this plan was first proposed in April is self explanatory as to your lack of consideration for the surrounding community as a whole. You need to ask yourself but one question. Would you want the same thing done to you ?
