Comments: I am writing to disagree with building plan on Holland Lake. My family is from Montana. I know Montana well. I don't want it to change. What makes Montana beautiful is the wilderness and its people. Listen to the people in that area and you will know they are afraid and upset about what this proposed plan will do, and rightfully so. It's going to ruin the shoreline and impact nature forever. This company is hoping to make a profit. That's all they care about. Some things in this life are more valuable than money. This is one of those things.
