Comments: To Whom it May Concern,

After reading and studying the proposal for this project, I cannot have any positive feedback to you. The environmental impact alone will forever change that beautiful pristine place. It is visited by those who are looking for a place as close to undisturbed as can be found. Just the traffic to and from this place, if allowed to go on, will impact an already taxed highway system. The tax dollars alone that would be necessary to put into improving roads, support services, and infrastructure are outrageous to ask of the people the county and those of Montana. Do not try to tell us, the people of Montana, that people think the project builders will be covering these costs. We are not that dense.

So, I am asking, imploring, you to please pass on this project.
