Comments: I have stayed at Holland Lake Lodge, eaten there, hiked there, ridden horses there, and understand and appreciate the beauty of the wilderness there. I also know several people who live in the area and understand why they choose to live there.

Holland Lake is a place of unmatched beauty and serenity where one can escape the madness of the modern world. The peace and quiet beauty of this place is rare, and it is much needed in a world gone mad with commercialism. The proposed project would irreparably damage the community and I fear would be only the first step towards ruining the character of the entire lake for the profit and greed of a few.

I am pleading with you to deny approval for this unnecessary and unwanted project. Please do everything within your power to prevent this catastrophe from happening.
