Comments: This is the saddest, disgusting thing I have heard in a very long time. We r pastime, and thought future guests of lodge, hiking trails and campground. It's beautiful, rustic, and so Montana. Please do not allow it to be ruined by some huge resort. And why? This is forest service land as well. Also why weren't the public informed earlier? Sept 21st hardly gives anyone a chance to be informed and comment, or was that planned? Thank God for U tube. I have seen this exact thing happen in Washington and Idaho. No more small resorts for public to go with the same ambience as Holland Lake. Please rethink it. Also it isn't even a Montana co.
Thank you
