Comments: I urge you to deny the request to expand the Holland Lake Lodge facilities. Too many lakes and outdoor areas are being squeezed and commercialized and it has got to stop. The wildlife is being pushed out, the noise is unbearable, and the general destruction of habitat surrounding every single posh installation like the one proposed is horrific.

If the new owner wants to renovate/rebuild the existing facilities, that's one thing. This fast tracked, without proper impact studies or public comment way of doing business is why Montana is failing to be the glorious destination it should be.

Stop this expansion. It is a heartless cash grab that will ruin a wonderful location.
