Comments: I coming from Los Angeles to enjoy beautiful nature of Montana. I really admire the empty spaces and all those trees DO NOT DISTURBED by Urbanist life and style. Absolutely NO NO NO to this project is gonna DESTROYED Montana Forever. Those rich people with money thinking only about profit and They greedy to count on business. Montana is not about business is about nature life. Whomever sell this place was an idiot. National Park Comities please PRESERVE this Natural life there and DO NOT Disturb wildlife to be One. We have enough of concrete and full of building places.
