Title:

Comments: I can't believe people don't learn from previous mistakes. Such as Big Sky and Bozeman. The ruination of the Gallatin valley and Gallatin canyon. Thank goodness for the park boundary including part of the Gallatin canyon. As far as I'm concerned it's the worst eyesore and backcountry invasion without any thought of preserving the ecosystem in the area as it is overbuilt and on fragile land. Please wake up people and see the distraction of pristine beautiful wild state. STOP the money grab and think of the negative outcome
