Comments: I do not support this proposal! I was born in Montana and spent summers at Holland Lake at my cabin. This is NOT AT ALL the direction the residence of Holland Lake and the general public want to see this property used for. We come for the solace and the beautiful scenery. It's hard to find these days because of projects like this! The forest service should not allow this to proceed. This proposal is absolutely absurd! Asphalt and more buildings in a area of a wilderness reserve is completely the wrong direction.
