Title:

Comments: I'm am opposed to this project as it will change the character of the area for everyone. I have traveled and spent a lot of time in this particular area over the years. As a Montanan and a taxpayer I am all about preserving the character of Montana for our children and our childrens children.

Not to mention the very reason outsiders have and are moving here. Why is it that leave there home state to move in elsewhere and then change the very thing that drew them here. In this case it's clearly all about money, money, money! Why is it so easy for those we trust in the political decision making to sell Montana out. Again it's money, money, money! We have allowed gentrification for the rich to go on in this state far too long.

I love my Montana and I really don't mind if people move here as long as they respect what Montanans values, the character, the beauty in what is, instead of wanting to change it to feed their money Hungry needs.

Montanans deserve a say about what happens in our backyards!
