Comments: I do not support expanded development of the Holland Lake site without a full environmental impact study. This area has an unique natural and cultural history. It deserves careful consideration of both intended and unintended consequences of such a large development effort. I am reminded of the environmental studies required when Big Mountain Ski Resort proposed adding a new chair lift. I'm asking that equal attention be given to the environmental impact of the Holland Lake POWDR development project. Please review the following YouTube video:

<http://youtu.be/1REzNxd74cY>

Thank you for your consideration of my request.
