Comments: Please do not tear down historic Holland Lake lodge and cabins, or at the very least do not allow a large or overwhelming new development in the area! As a native Montanan I love the historic and even "run down" places to visit that remind me of MT history; my family and I are NOT looking for something fancy or luxury to replace this. I love the hidden gems and quiet places that keep your focus on nature, such as how Holland Lake and the Lodge is now. It will be sad if new developments cause more traffic and resulting pollution to ruin the fantastic recreation currently available at Holland lake the way it is now.
