Comments: To whoever has the authority to approve this project, please don't. To do so without an Environmental Analysis or Environmental Impact Statement would be irresponsible and illegal. What Powdr Corp and Christian propose is not a Recreation site that can be categorically excluded. What they propose is a commercial property that will destroy the natural beauty of Holland lake, threaten endangered bull trout, scar the landscape and be an eyesore for the next millennia. It goes against the CFR (the legal binding document).
