Comments: I am writing to strongly oppose the renovations and expansion of Holland Lake Lodge. The beauty of Holland Lake and the Seeley/Swan is the lack of "modern amenities" and the lack of crowds. Expanding the lodge to make the proposed resort will be detrimental to Holland Lake and the surrounding area. We've already seen the impact of what happens to other areas of our state when modern amenities and excessive tourism are introduced. Locals are priced out of living and recreating in their own neighborhoods. Natural resources and our forests get overused and often abused. We need to preserve this area as is. If this expansion is allowed I fear it will be the gateway for more expansions into our forests.
