Comments: Holland lake is a beautiful and breath taking location. It is my favorite place in all of Montana. Holland lake keeps this beauty because although many know and love the lake there is also a managed amount of people that visit the lake. With the expansion of the lodge I do not seeing the beauty of the lake staying. I don't see loons nesting on the lake, I don't see the water staying as clean anymore. To see out of state businesses buying property and destroying what makes our state so amazing is unacceptable.
