Comments: I strongly Object to the new proposed lodge at Holland lake. I do not think you guys have done your homework regarding septic issues ,water issues, traffic traffic issues or parking for the immense amount of people that it's going to generate in the area. I have a cabin nearby and I know for a fact that the lake is going to turn into a seeley lake if you proceed to let this happen. And if it does go through it just shows that the forest service can be bought with big money.
