Comments: To whom it may concern,

I am originally from Montana and have several family members who still reside there. I am writing in opposition to the development proposed at Holland Lake. This area with its natural beauty and historical outbuildings should be preserved. It saddens me to think that pristine areas like this will be exploited by large corporations. I implore you to reject this development in its entirety. Please keep this area as the natural beauty it has always been. Let POWDR focus their efforts in expanding Park City....not destroying Holland Lake.

Thank you for your time.

Shawna Anderson
