Comments: I have been spending time on Holland Lake for over two decades. My children have spent many amazing days swimming, hiking and enjoying the quiet beauty of this magical place. This spot is unique in its breathtaking grandeur and relative seclusion. There are very few public areas that can afford the same access and serenity. Please recognize that the regular families of Montana value Holland Lake as it is right now. We do NOT want any more development on this lake. Please protect this area and preserve its magic for generations to come. Do not allow any more development along this lake shore. This proposed development will negatively impact the area . Please do not allow this proposal to move forward.
