Title:

Comments: Please allow Holland Lake & the properties on the forest service land to be preserved & protected as they are. MT is the last best place & a place accessible to anyone seeking nature, beauty & adventure regardless of income or status. Protecting our state & land is a huge honor & responsibility. Please really take this to heart. It should continue to be a quiet place in nature, a hidden gem, that humans can continue to enjoy in the most natural ways. We need more places like this to be protected. It starts here.
