Comments: To whom it may concern,

I objected to the Holland Lake Lodge project by Powdr. This is one of the last untouched treasures of Montana. A huge project like Powdr is proposing would not only threaten the total wilderness of the Bob, but would destroy the land and have possible pollution possibilities. Please consider the project carefully. I'm not a environmental crazy, just a born and raised Montanan who wants to preserve our beautiful Western Montana. The traffic, infrastructure, and amenities are too much for this rural area
