First name: Abby

Last name: Michalski

Organization:

Title:

Comments: This area needs to be preserved, not exploited. Colorado has turned every area with any natural beauty into these enormous resort areas. The consequences of this, aside from the inevitable ecological damage is that it is making it impossible for people who were born in the area to remain in their homes. The economic benefits of places like this will be funneled out of Montana, the "hundreds of jobs it creates" will not pay wages that allow people to live even modestly in the area and it will destroy everything that makes Montana great and unique.

Please leave the last best place alone.
