Comments: I have been going to Holland Lake for 30 years. I've built memories of high school graduation trips, children's birthday parties, and a second generation of my friends' families camp there. I've seen friends married on the shore and I've seen memorials of loved ones held at the waterfall. I've swum, kayaked, canoed, and fished this lake. The lake used to be the only unspoiled lake before boats and jetskis were allowed. But it's still a glorious display of Montana's beauty. This project will defile the beauty. It will ensure that long-time visitors and residents of the state like me will be shut out from a place we hold dear. This project has one goal: exploit Holland Lake and keep Montanans out.
