First name: Anita

Last name: Turner

Organization:

Title:

Comments: I am a 3rd generation Montanan who may not live there anymore but my roots are there. Most of my family is buried there. YOU CANNOT allow this destruction and construction to happen. This is pristine wilderness and it is your job, as the US Forest Service, to preserve sensitive environments like Holland lake and the surrounding area. Those coming in to build and profit from this area couldn't give a rat's ass about the environment, the animals living there or the generations of Montanans who have enjoyed it. Please do not allow this to happen.
