Comments: Absolutely NO WAY should this resort project at Holland Lake Lodge Facility be allowed to happen!

(1) It is on FEDERAL land;

(2) Tourists come to Montana to experience WILDERNESS NOT a fancy resort:

(3) It will destroy the peaceful environment of that area and interfere with wildlife;

(4) At a time when trees are being burned down at an unprecedented rate, to sacrifice 200 trees for this project is disgraceful!

I am wondering why this project has been kept out of the public eye when the Forest Service knew about it all the way back in April??? It appears that someone is getting paid under the table to make sure this horrendous destruction of wilderness goes through!

PLEASE PROTECT OUR LAND FROM DEVELOPERS! THAT IS YOUR JOB!
