Comments: My family recreates in the Seeley valley-fishing, hiking, visiting Lindy's steakhouse, you name it-several times every year. I strongly oppose moving forward with the Holland Lake expansion proposal without an Environmental Assessment or Environmental Impact Statement. The Seeley valley is too important to not think through these types of major changes for the valley without doing all of the due diligence to understand how the expansion would impact the environment. I urge you to reject any current proposals for these reasons. Thank you and have a great day.
