Comments: I have been camping at Holland lake for 25 years. The place is one of my most peaceful and loved places on the earth. Many of us get to enjoy its beauty. Part of the beauty is the sound of the loons. The lake is so clear you can see the bottom Until it gets too deep. To build anything more along that lake would destroy what Montana is. I am heartbroken and sick at the thought. Building those kinds of structures will degrade the habitat. Loons are already scarce. Please, please don't destroy what Montana is.
