Comments: There are plenty of massive tourist places in the USA. We DONT need or Want one here in Montana. The whole idea if the beauty of our state is the tranquility, solitude, and undisturbed NATURE. MONTANAN's are already having a difficult time being able to enjoy our own damn state. Gone are the days we take off on a whim to drive through our parks to enjoy its beauty. Dont do to us what DISASTER got done to Hawaii. Those greedy Bas--ds can follow the rules, laws, and RESPECT our state. And WHOMEVER allows this to happen will regret their decision.....KARMA. I have lived and LOVED in Montana my whole live, never intending to leave because of exactly what Holland Lake and other places here offer.
