Comments:

We can no longer find local lakes to picnic at, swim in, play with our dog, take out our boat. Lake Blaine is now a private lake, Flathead lake--nearly impossible to find a public spot, etc. I am strongly against ANY private corporation, individual, or religious group buying more than 300 feet of ANY lake, river, stream, or body of water in Montana previously owned, not new, unclaimed land! Stop this now before we are pushed aside like the native Americans have been. Please ADD more public areas, don't give it away! Make more parks, beaches, kids spots, fun places too have a family reunion, play with your dog, sit and unwind, heal your tattered spirit, fish, paint, draw, explore! and how does this feel? Will we be, "the future" for all Montanans or be the forgotten "past" and sell our past for an uncertain future and be cast out? We all need to be aware of what HAS happened and "save the future " of our state and all of our gifts for ALL of us to enjoy, not just a few with money. No. Don't let this move forward.
