Comments: Hello I am Joseph Campbell an I have grown up in Butte an have remained in Montana my whole life.

I have three kids an hope to raise them here the way that I was raised. These Big tourist hotspots are great for revenue but is this really what we want to raise our kids around? I've always enjoyed back packing an camping in these remote areas. This is a catastrophic plan to build on such a beautiful lake that has that old rustic look.

Please look into this maybe they can give a little for us true montanans an meet an agreement about this proposal.
