Title:

Comments: Holland Lake is a treasure that must be protected & accessed by all Montanans. Protecting public lands from private money that uses our environment for profiteering is a mistake. It will threaten our wild life & our ecosystems. Some of these treasures here are not to be held by one person or group of persons, just because they can come & afford to monopolize them. Holland Lake is priceless & we should be do everything we can to preserve her & keep her accessible for all who know & love her. (Especially the wildlife).
