Comments: I was born and raised in Montana. I graduated from an eastern Montana high school. After college I lived in Michigan for 18 years before moving back to this beautiful state. Please keep it beautiful. Please protect the areas that are not grossly commercialized. When wilderness areas become become commercialized, they become largely unavailable to the average Montana family. Hollander Lake is a hidden beauty in our state. It's quiet and peaceful and beautiful AND accessible to all. I am not in favor of it being turned into a resort area. There are few places like it left. Please protect what we have.

Thank you.
