Comments: Us Montanans are fed up with Big money! We just tried to have a family reunion in 2022 but I don't dare say where as we have no place to go without the outrageous costs of nearly every destination that use to be natural, wild & no restrictions & low cost. It's very sad as we get pushed back more & more by big money buying & dominating the land & turning it into a superficial atmosphere that only benefits the wealthy. We use to joke how MT is the last best place but here they came! The greed has arrived & we need to stand up now!!
