Title:

Comments: I sincerely object to this project 1,000%. This is so insane on your part to consider this project on US Forest Service Land.

I am contacting people tomorrow to contribute money to fight this proposal and sue those who are allowing this to happen. If anyone has any side deals happening you will be exposed and will be prosecuted to the full extent of the Law.

I will be passing this along to a lot of MT folks I know. My moms family of 11 were born and raised in MT. We will be looking at you folks with a microscope.

STOP THIS PROJECT NOW. As I will not stop.
