Comments: I was just camping and hiking in and around Holland Lake a few weekends ago (and had a drink at the lodge) and am so sad to hear that out of state developers want to come in and ruin it. I've seen that happen in my immediate community (Big Sky/Bozeman) and it's really hard to watch. It won't have any benefits for our own residents...just taking away something that is special to us so wealthy out of state people can get wealthier. Holland Lake is so special because of how off-the-grid it feels. Not to mention how these plans will disrupt wildlife and nature there (so many beautiful trees). Please don't move forward with these plans to change it.
