Title:

Comments: For goodness sakes can't we just keep our culture and history instead of tearing it down for out of staters. We should try and make Montana it's own culture not make Montana a Californian playground.

Montana's history should be preserved not destroyed by people who don't even live here. Holland lake is a part of Montana's natural beauty and history and it should be preserved not subdivided and built up for people who don't live here. Montana should be Montanan not Lake Tahoe.
