Comments: Haven't we already lost enough of our history, of this place I call home to big outside corporations coming in and seeing only profit and not all that is behind these places??? Why oh why would we support a group that plans to rip down a lodge some of my friends visit every year on their anniversary because that is where they tied the knot, spoil the view - with yet another anti-Montana mega-mansion lodge - that my friends and I enjoy every year when we go down and spend the weekend and hike to the falls, and disregard all of the history us locals have with this place. Please don't succumb to the greed that is tearing NW Montana apart town by town.
