Comments: Dear Sir or Madam,

I want to publicly share my whole hearted disapproval of the proposed changes to the land at Holland Lake for the resort that Powdr wants to build. It would definitely ruin the quiet, culture, nature and presence about Holland Lake and the surrounding area, historians heritage. It would also draw traffic that is not welcome or wanted by the local population. Please consider the voices of those who cherish this space the most, the locals who value and have valued it for a very long time. Thank you for your support,

Kelly H
