First name: Logan

Last name: Aiken

Organization: Big Sky Earth Science

Title: Owner

Comments: Aside from what I do as a geologist and what I have to say about this. I can't believe this is even an option when it comes to the housing crisis here. Yeah sure, let's bring in a bunch of people so wealthy they don't have anything to think about besides their next rental property.

If stuff like this keeps happening Montana is hopeless. Don't be part of the problem plaguing our state right now. Look at Bozeman. Please for the love of all that is, do not go this direction .
