Title:

Comments: How can ANYONE be allowed to destroy the soul of Montana? This resort must be stopped. If this is allowed, there must be some dark money involved - something seems very fishy when these sorts of things are approved and pushed through. This better not be another instance of psychopaths manipulating the system for purely financial gain. Is a third generation Montanan I am emphatically against this all-for-profit, ugly, Montana-destroying resort. And I'm guessing the fish and loons are against it as well!
