Comments: PLEASE, STOP, all the new development in our state. It's ruining this beautiful, peaceful state! WE are over run with tourism, and people who just want to buy a vacation home or a rental property. The average Montana cannot afford their own home when competing with out of staters with cash. The more you accommodate this fancy lifestyle, the more people you bring here. Montana is loved by the people who appreciate its simplicity as is. If "they" don't like it as is, they don't need to come. They're missing the point of being here. Developers don't care about ruining our simple, peaceful beautiful way. Its \$ thats turning our state up side down. Thank you
