First name: Sherri

Last name: Gallant

Organization:

Title:

Comments: Approval of this project would be an expansion of current use (expansion of square footage and increased public use) this does not fit under any NEPA exemption or exclusion. Additionally this proper expansion would impact the lake buffer and negatively impact water quality via erosion and water, and impact fish and wildlife in the area. This project should only proceed via the NEPA EIS pathway with public and tribal comment.
