Comments: Please do not allow this developer to go forward on this Public land on any scale!!

My girlfriend and many of her friends use Holland lake to relax and kayak on and are adamantly opposed to this as I am.

I moved here 5 years ago from Colorado where I grew up and once loved with every living cell in my body, I'm 67 now and I despise what Colorado has turned into exactly because of developments like this one! Leave the Swan Valley alone, let it remain the pristine undeveloped beautiful valley that it is. The BOB certainly doesn't need anything like this right on its boundary, what are you people thinking?

It's Public land and this is being shoved thru without the Public being informed, and that's just wrong on so many levels. Why are you practically "sneaking" this? Where is the transparency?

And why build it when Flathead lake, Seeley lake and others are so close by?

Please reject POWDR's offer!!
